

You can't afford to lose your hard earned money either by the market or by government intervention and you don't know what to do - right?

We have an answer

What if you could re-position any portion of your 401(k) into a plan and

- *pay no penalties or taxes on transfers*
- *get a 100% guarantee of your principle and 5% immediate interest credit on every contribution paid in the first 7 years*
- *PLUS - when the market rises, you enjoy a return, if it drops your account stays level.*
- *receive a Guaranteed Lifetime Income without annuitization - you control your money!*
- *still contribute to your 401(k) for the tax benefits*

TO ALL EMPLOYEES 59½ AND OVER

. . . . How did your 401(k) do in the last 5 years?

- *If you are the average person you could have lost about 40% of your retirement!*
- *The U.S. Government is propping up the stock market to the tune of \$85 Billion per month! What do you think the economy and the market will do when they stop?*
- **PLUS**—Congress has had meetings over the course of the last 2 years about taking over your 401(k) making you take Government Securities, paying you penitence, make you take a pension and losing control over your money?

You are about to retire in the next 5 to 10 years, how much money will you have in your 401(k), if you still have it, when you do?

To find out more, go to www.surecardbenefitsgroup.com and click on "Are you covered by State Benefits" and choose 401k Dilemma.
